The link to that one was in the topic and i don't know how to use this website with all the controls as i am a complete newbie (: We are looking for The Night World series or the Night World trilogy in particular as it is the best of them all. If you have any extra materials we would love to see it. We hope you find this topic interesting, the truth is we don't care how or where you got the books from, all we care about is getting the actual books. Please be aware, we are looking for the first two books in the series, Blood and Powder, not Blood and Burial, and Blood and Shadows, not Blood and Bone. Please re-upload any and all of these books here with the file title changed so we know what you have uploaded. If you cannot upload them you can send us a private message through the pm button, we will then send the files to you. Title of Book: Blood and Powder Author: Alexandra MonroGenre: YA/Fantasy Published: November 2006 ISBN: 978-0521076303 Series: The Night WorldTrilogy, Book 1 - Blood

and Powder, Book 2 - Blood and Shadows, Book 3 - Blood and Fire Chapter 1 The night was cold, and the cold was deadly. The city of Ton and the outlying towns and villages were locked into a merciless winter storm that raged on. The relentless wind howled and wailed, the snow tumbled and fell, and all was lost in a white-out blizzard of driving snow and furious wind. Chapter 2 Powder had been hard to come by. Supply was dwindling rapidly, and with it their chances of survival were seriously threatened. The only way they could prevent the spread of the sickness and keep the rats from becoming ill was to completely restrict the use of this drug. No one except the very rich were going to want to use the stuff anymore. With their supply now running out, they had little choice but to fall back on more traditional methods to ensure the security of their home. Chapter 3 Powder was a unique drug. It had a bitter, metallic taste, yet had a peculiar effect on the body. It increased the production of serotonin and norepinephrine in the brain and central nervous system. Chapter 4 The rats would have had a much 82157476af
