About This Game

***Steam community:

Since I'm working on Solar Fighters alone using my own efforts, it's taking more time than I've thought but I'm still working on this, fighting games are really hard to do, several details and tests. Doing my best to leave Early Access as soon as possible! '-'

Help Gaia fight battles to protect her prestige given by the Sun. Gaia is the most lucky among the others 4 personas in the Solar System, this leads to a rebellion intended to steal the Gaia's glory.

These first 5 characters are the start of a solar battle in our system, but this can be much bigger as the way through this goes.

Fight against other planet personifications with the help of Luna or defeat Gaia and her life-mate to reach a great glory.

Oh man! The game is worth it just for the hilarious facial expressions the characters make.
Gameplay is pretty standard fighter stuff but it is quite choppy compared to higher budget affairs. (Tekken, Street Fighter, etc.)
Needs some polish and maybe some more characters.
There is a (thin) single player story for every playable character.
I laughed my\off.

<https://youtu.be/4HadbWYRv18>. I played the game for maybe 5 minutes and found no training mode. A very clunky and horrible gameplay. I could combo a "X+X" attack until the enemy was dead. this game is awful.
